

Dissident Irish Scientist Seeks Justice

Professor Brian G. Mc Enery

Brian has been denied his rights of freedom of expression, and his rights to make a living in Ireland for at least the last seventeen years.

He now finds himself in the unenviable position of having no funds at all, no home at all, and no immediate prospects of either.

In order to bring attention to his situation he is undertaking a walk from Cloghane in West Kerry, to Leinster House expecting to arrive on the morning of the 21 December 2013, the morning of the Winter Solstice.
